**Carrie Feit**

(she/her/hers)

[carrie@womensmarchfl.org](mailto:carrie@womensmarchfl.org)

Born and raised in Brooklyn, and after graduating George Washington University Law School in D.C., Carrie settled in Miami where she practices disability insurance law and enjoys raising her family. She is also a photographer, a passion that came later in life that led to her specific skill of portraiture.

Carrie is a Founder and current Co-President of Women's March Florida, heeding the call to march in D.C. hours after that stunning political event in November of 2017, which began her journey to an inclusive feminist movement and her commitment to collective liberation through a Black Feminist lens/intersectional framework. For several years, Carrie proudly served as the President of Women's March Miami (now a Co-Directorship), a group of remarkable women that have guided her on her path of antiracism and allyship, and who are committed to centering Black, Brown, Indigenous and Trans Women and Women with Disabilities through education and advocacy.
